# GALAXY<sup>™</sup> R Installation Instructions

Step 4. Use 4 pcs M4x25 self-tapping screw to secure the mounting bracket on to the ceiling.

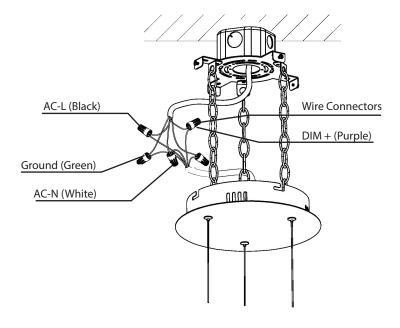

**ATTENTION:** Must secure mounting plate at all connection points (Junction box plus four outer point for small and medium size, or six outer point for large size) to support fixture weight appropriately. Not using all the mounting point could result in damaging fixture and voiding product warranty.

Step 6. Adjust the fixture safety cable and aircraft cable length, use screw to fix with mounting bracket and mounting canopy. Then loosen all the cables.

Step 5. Use wire connectors L, N, B, DIM+, DIM - wires. After making the connections place the wires with connectors into the J-Box.

Step 7. Ensure that the fixture is secure. Adjust the safety cable and aircraft cable length. Turn on the power at breaker box or main fuse box to see the fixture is in working order.
