

SAFETY GUIDLINES

READ CAREFULLY BEFORE INSTALLING.
RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE.

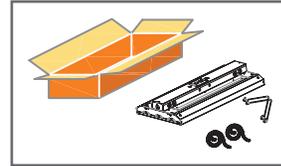

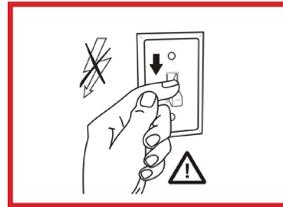

- **CAUTION - Risk of electric shock.** Before installing this fixture or performing maintenance make sure to turn off the power supply at the circuit breaker or fuse box.
- **WARNING** - This product must be installed in accordance with the applicable manufacturer installation instructions.
- Installation should be performed only by a qualified electrician in accordance with the National Electrical Code (NEC) and local electrical codes. Proper grounding is required for safety.
- **WARNING** - Test lamp before mass installation.
- Suitable for non-insulated surface and frame. Do not cover fixture with insulation liner or similar material.
- **WARNING** - This fixture is not intended for use with emergency exits.
- **CAUTION** - If the lamp or luminaire exhibits undesirable operation (buzzing, flickering, etc.), immediately turn off power, and contact the manufacturer.

TGS cannot and will not be liable for any modifications or results of modifications to electrical devices or fixtures. These instructions are provided as a reference. By using the included instructions, you are solely responsible for following all applicable electrical safety procedures, codes, methods, and materials. If you are unsure about any electrical modification or installation, please consult a licensed electrician or electrical contractor in your area.

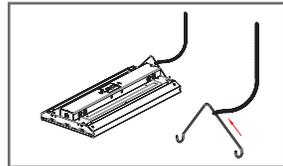

Installation Instructions:

- Unpack and carefully examine the product.
- Report any damage and save all packing materials, if any parts were damaged during shipping.
- Do not attempt to use this product if it is damaged.

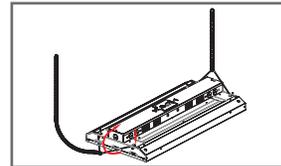

CHAIN MOUNT INSTALLATION

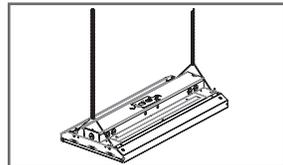

- Remove the fixture and accessories from the carton.

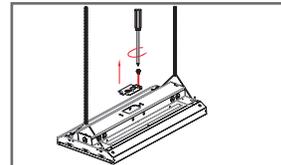

- Thread hook through the hoop of the chain cable.

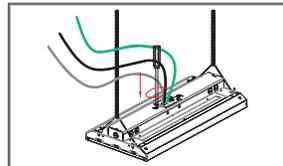

- Install the hooks into corresponding holes on the fixture.

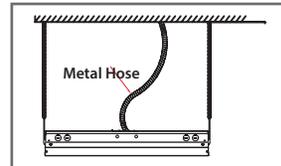

- Connect the chain to the installation location and adjust the fixture position, level and position.

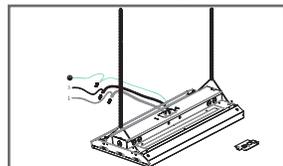

- Remove the access plate.

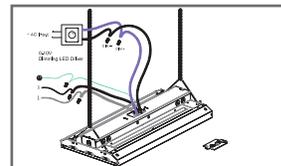

- After wiring is completed, re-install the access plate.

- Run wiring through flex hose or conduit.

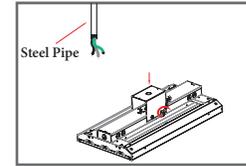

- Connect AC wires and ground to corresponding wires.

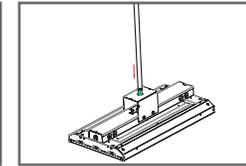

- Optional: Connect dimming wires.

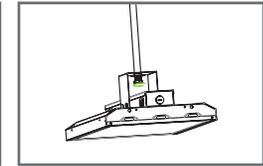

PENDANT MOUNT INSTALLATION

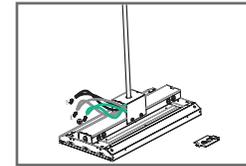

- Attach the pendant mount to the terminal block.

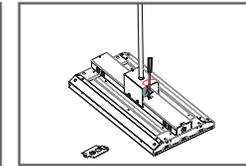

- Feed the pipe through the pendant mount.

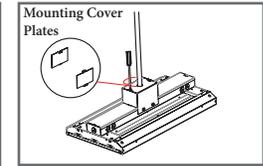

- Lock the pipe in place with the screw nut.

- Remove the access plate and the wire ends and connect them to the AC wires.

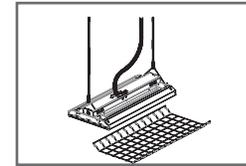

- After the wiring is completed, re-install the access plate.

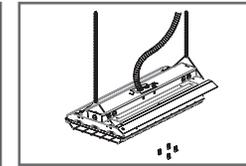

- Install the mounting cover plates onto the pendant mount.

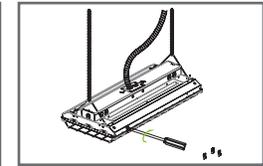

WIRE GUARD INSTALLATION

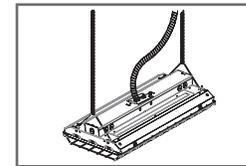

- Remove the wire guard from the carton.

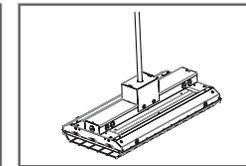

- Place the wire guard on to the lamp fixture.

- Place and securely screw the clamp to the fixture.

- Install the other three clamps.

- Wire guard can also be installed on a pendant mounted fixture.
