## Installation

### Flush Mount

1. Make sure power is OFF and the J-Box is securely mounted before installing the fixture, see Fig1.
2. Refer to the hole position on the bracket and align the holes, Hold the mounting bracket up to the junction box. Screw the mounting bracket to the J-Box, see Fig2.
3. Select the desired lamp color with the CCT switch , see Fig3.
4. Connect supply wire to the wires on the fixture/bracket with wire nuts. Connect white wire to white wire, black wire to black wire and green wire to green wire as grounding connection, see Fig4.
5. Arrange the wires into the J-Box.  
Align the 2 screw points on fixture to the wider side of long holes on the bracket, twist in clockwise direction until fixing stable. Turn on the power after installation, check the fixture can work well, see Fig5.
