

## APPLICATIONS

Retail Centers, Industrial Parks, Schools, Universities, Public Transit, Airports, Office Buildings, and Medical Facilities

## FEATURES

## Specifications

Conforms to ASTM-A 500 Grade B: Minimum Yield Strength of 46,000 PSI. Pole Height Range From 10' to 30': Usage case is based on luminaires applications.

## Finish

Textured architectural bronze powder coat finish: Baked to ensure maxiumum paint adhesion, hardness, and durability.

## Anchor Bolts

Anchor bolts are included, sized based on pole data chart for the selected pole size.

## Base Cover

Poles are provided with two -piece formed steel base cover that is easily assembled and fitted over the pole base.

## Pole Height

Shown below in ordering matrix are the available standard pole height. Usage is based on selected luminaires application.

## Mounting Options

Standard length poles include 2 3/8" O.D. tenon, side drilled 2@180․, polycarbonate top cover and hole plugs for unused drilling locations.

Our standard equipment is to make a top adapter with 2.5 inches. There is no opening on the top of the light pole. If ARM installation is needed, the top adapter shall be removed and holes shall be opened on the wall of the light pole. Finally, seal the top with a plastic rain cover.

## National Wind Velocity Map

## FIXTURE CONFIGURATIONS

## 3" Base Cover

No.: TGS-IBR3-D
Finish: Dark Bronze
The $3^{\prime \prime}$ Installation of base cover is used to protect the base after fixing the lamp pole, so that the lamp pole base is not damaged, thereby increasing the service life of the lamp pole.

## 5" Base Cover

No.: TGS-IBR5-D
Finish: Dark Bronze
The 5" Installation of base cover is used to protect the base after fixing the lamp pole, so that the lamp pole base is not damaged, thereby increasing the service life of the lamp pole.

## Base Mounting Screw

No.: TGS-BMS-S
Finish: Silver
Before installing the lamp pole, the installation hook should be buried underground and fixed by cement After fixing, the lamp pole should be fixed by locking screw and base installed.

## 4" Base Cover

No.: TGS-IBR4-D

## Finish: Dark Bronze

The 4" Installation of base cover is used to protect the base after fixing the lamp pole, so that the lamp pole base is not damaged, thereby increasing the service life of the lamp pole.

## Screw Positioning Plate

No.: TGS-SPP235
This is a screw rod positioning plate. After the screw rod of the lamp rod base is fixed underground, the positioning plate is fixed with the screw rod to prevent the screw rod from deviation. Finally, the lamp rod is locked.

## INSTALLATION

4" Flange

5" Flange

4" Flange Base Cover

## APPLICATIONS

Retail Centers, Industrial Parks, Schools, Universities, Public Transit, Airports, Office Buildings, and Medical Facilities

## FIXTURE CONFIGURATIONS

## 4" Base Cover

No.: TGS-IBS4-D
Finish: Dark Bronze
The 4" Installation of base cover is used to protect the base after fixing the lamp pole, so that the lamp pole base is not damaged, thereby increasing the service life of the lamp pole.

## Screw Positioning Plate

No.: TGS-SPP-D
This is a screw rod positioning plate. After the screw rod of the lamp rod base is fixed underground, the positioning plate is fixed with the screw rod to prevent the screw rod from deviation. Finally, the lamp rod is locked.

## 5" Base Cover

No.: TGS-IBS-D
Finish: Dark Bronze
The 5 " Installation of base cover is used to protect the base after fixing the lamp pole, so that the lamp pole base is not damaged, thereby increasing the service life of the lamp pole.

## Base Mounting Screw

No.: TGS-BMS-S
Finish: Silver
Before installing the lamp pole, the installation hook should be buried underground and fixed by cement After fixing, the lamp pole should be fixed by locking screw and base installed.

1. Dig a hole in the installation
position of the lamp pole. Fixed four fastener fittings according to the hole position of lamp pole and poured with cement concrete. (as shown in th
figure) $3^{\prime \prime} \times 5^{\prime \prime H} \mathrm{AND}$ HOLE COVER

Flange base cover Nut
2. Install 4 screws onto the stick and adjust to same water level, then place the square plate and screw tightly. Install the cover at the bottom of pole. (as shown in the figure)
